

New Level 3 Certified Facilitator Trainer Highlight

The Nebraska AGC Chapter, in Lincoln, Nebraska hosted a successful Level 3 Certified Facilitator Training on May 21, 2009. They have a great group who wants to provide opportunities for safer environments in the construction industry through Daily Dose Learning Systems. We would like to recognize Leonard Weander and Samantha Porter, as new CFTs.

Samantha says, "Daily Dose appears to be the solution that our contractor members have been looking for. Leonard and I are excited to train the facilitators so they'll be able to work directly with their crews to not only improve their English, but also teach safety procedures and job skills. The time requirements for the program are minimal, and the results are remarkable."

Mr. Weander, Education/Training Coordinator, has been with the Nebraska AGC for five years. Ms. Porter has worked as the Member Services Coordinator for the Nebraska AGC for two years since receiving her bachelor's degree from Nebraska Wesleyan University.

Facilitator Trainer

Daily Dose Learning Systems Developing New Products

The Daily Dose English/Safety Program has been used in the construction industry for several years and is designed for learning English and safety skills simultaneously with language customized for the construction field. A speaker of any language may join the group because the process is done completely in English: a Chinese-speaker can stand next to a Spanish-speaker and a Swahili-speaker. It is all done in English.

A more general Workplace Safety program is being used by manufacturers, warehouses, and others.

Our development team is currently completing the General Life Skills Series. This month they are completing an additional suite for Construction, and will soon be developing one for Custodial/Maintenance.

More information can be obtained at 800-672-8935 or by emailing info@dailydoselearning.com

"To build a successful program whether it be safety or customer service, you have to look at the relationship that management has with employees. You want to improve safety? Improve the relationship. Daily Dose is one more valuable tool in the toolbox of relationship building. We spent most of our time trying to "translate" rather than teaching the language. Critical relationships cannot be developed with communication misunderstanding. Daily Dose brought the teaching mechanism to our safety program that took it from **the worst to zero incidents for a year.** Improved understanding and communication led to a better relationship."
Gregg Collison
SBM Site Services, LLC

Recognitions

We enjoyed meeting with SBM Site Services, LLC this month. They have been using Daily Dose Learning Systems products for over a year and were able to reduce their number of reportables significantly within the first quarter! They have also seen a great success among their employees' behavior in greatly improved conversation skills and increased confidence level. The employees can trust their employer and see that the company is looking out for the employees' best interest. Way to go, SBM Site Services, LLC!

What a joy it was for us to meet with the West Jordan Deseret Industries team! It is easily apparent they are a passionate group dedicated to improving the lives of refugees and others who need a hand up! Best wishes to them as they continue working through the daily challenges of helping newcomers understand our culture!

A special thanks to Terri Mackel at Cornhusker Marriott and Lyle Hayes with Constructor's, Inc., in Lincoln, Nebraska for letting us teach their employees safety and English skills!

Training & Certification

We offer Level 1 Facilitator trainings, which are two hours long. If you have a large group of Facilitators to train, you can save time and money by scheduling onsite training.

Level 3 CFT Certification has been changed from a two-day to a one-day workshop. These are scheduled no more than once per quarter. Let us know if you would like to be notified of upcoming Level 3 Certification Workshops.

Contact our office at (801)228-2328 or via email info@dailydoselearning.com to let us know what type of training you are interested in, and we will help you register.

We welcome the latest additions to our Daily Dose Learning Systems Team:

Audra Nichols, Sales Assistant
 Dario Aguero, Operations Manager

We appreciate the great work you are doing!
